DATE AND TIME OF PRODUCTION	05 August 2022 15:24:12 CET

YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.

WHAT IS THIS PRODUCT?

Denomination	CHF 1,000.00	Initial Fixing Date	19 August 2022
Issue Currency	Quanto CHF: The currency risk is fully hedged	Issue Date	26 August 2022
Issue Price	100.00% of Denomination	Final Fixing Date	21 August 2023
Maximum Yield	10.06%	Final Redemption Date	28 August 2023
Maximum Yield p.a.	10.00%	Final Level	With respect to each underlying, its level at the scheduled closing time on the Final Fixing Date on the related Exchange
Initial Level	the level on the Initial Fixing Date	Lock-In Level	with respect to each underlying, the relevant Lock-In Level being 105.00% of its Initial Level
Strike Price	100.00% of the Initial Level	Lock-In Event	If the Level of each underlying at the Valuation Time on any Lock-In Observation Date is at or above its Lock-in Level.
Barrier	60.00% of the Initial Level	Lock-In Observation Date	the relevant Lock-In Observation Date(s) being the date(s) on which the Level of each underlying is observed for purposes of determining whether a Lock-In Event has occurred.
Barrier Event	The price of any underlying is at or below its Barrier at any point during any trading day in the Barrier Observation Period.	Day Count Convention	30/360
Barrier Observation Period	19 August 2022 (inclusive) to 21 August 2023 (inclusive)		
Coupon Amount	10.000442% p.a. of the Denomination Split into two components (for Swiss tax purposes): Interest Amount 0.60% p.a. of the Denomination; Premium Amount 9.40% p.a. of the Denomination.		
Settlement Type	Cash settlement		

UNDERLYINGS

Name	ISIN	Initial Level	Break-even	Strike Price	Market	Currency	Exchange
Lam Research Corp	US5128071082	USD 523.31	USD 470.6859	USD 523.31	EQUITY	USD	Nasdaq/Nqs (Global Select Market)
Applied Materials Inc	US0382221051	USD 109.05	USD 98.0839	USD 109.05	EQUITY	USD	Nasdaq/Nqs (Global Select Market)
Micron Technology Inc	US5951121038	USD 62.94	USD 56.6108	USD 62.94	EQUITY	USD	Nasdaq/Nqs (Global Select Market)

TYPE: Swiss law governed notes.

OBJECTIVES: Barrier Reverse Convertibles are primarily targeted at investors expecting the value of the underlyings to remain constant or to slightly increase throughout the term of such products. The product offers you a return in the form of interest payments (i.e. the Coupon Amount as specified below under Interest) and a cash payment on the Final Redemption Date, based on the conditions set out below. The risk associated with the investment in the product is comparable to the risk associated with a direct investment in the Worst-Performing underlying. The product provides for a continuous observation of the Barrier.

The Lock-In feature may provide you with a conditional protection from an unfavorable development of the underlying(s), i.e. if a Lock-In Event occurs you will receive on the Final Redemption Date a cash amount equal to 100% of the Denomination in addition to the interest payments.

Lock-In Observation Dates

19 September 2022	19 December 2022	20 March 2023	20 June 2023
19 October 2022	19 January 2023	19 April 2023	19 July 2023
21 November 2022	21 February 2023	19 May 2023	

INTEREST: On the relevant Coupon Payment Dates you will receive the respective pro rata payment percentage amount of 10.00% p.a. of the Denomination, provided that the product has not been redeemed, repurchased or cancelled prior to the relevant Coupon Payment Date. The coupon payments are not linked to the performance of the underlyings. The relevant dates are shown in the table below.

Coupon Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date
1st	26 August 2022	26 September 2022	26 September 2022
2nd	26 September 2022	26 October 2022	26 October 2022
3rd	26 October 2022	26 November 2022	28 November 2022
4th	26 November 2022	26 December 2022	27 December 2022
5th	26 December 2022	26 January 2023	26 January 2023
6th	26 January 2023	26 February 2023	27 February 2023
7th	26 February 2023	26 March 2023	27 March 2023
8th	26 March 2023	26 April 2023	26 April 2023
9th	26 April 2023	26 May 2023	26 May 2023
10th	26 May 2023	26 June 2023	26 June 2023
11th	26 June 2023	26 July 2023	26 July 2023
12th	26 July 2023	28 August 2023	28 August 2023

FINAL REDEMPTION: Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive:

- if a Lock-in Event has occurred (for the avoidance of doubt, this applies irrespective of whether a Barrier Event has occurred), a cash amount equal to 100% of the Denomination ; or
- If neither a Lock-in Event nor a Barrier Event has occurred, a cash amount equal to 100% of the Denomination.
- If no Lock-In Event but a Barrier Event has occurred, and

- (i) the Final Level of each underlying is **at or above** its Strike Price, a cash amount equal to 100% of the Denomination; or
- (ii) the Final Level of at least one underlying is **below** its Strike Price, a cash amount equal to the Denomination multiplied by the ratio of the Final Level of the Worst-Performing underlying divided by its Strike Price.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 6 out of 7, which is the second highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: CHF 10,000		21 August 2023 (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	CHF 1,239.47 -87.46%
Unfavorable scenario	What you might get back after costs Average return each year	CHF 5,358.94 -46.23%
Moderate scenario	What you might get back after costs Average return each year	CHF 11,005.60 10.00%
Favorable scenario	What you might get back after costs Average return each year	CHF 11,005.60 10.00%

This table shows the money you could get back during the lifetime of this product under different scenarios, assuming that you invest CHF 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where Julius Baer may not be able to pay you.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the indicated holding period(s). They include potential early exit penalties.

The figures assume you invest CHF 10,000. The figures are estimates and may change in the future.

COST OVER TIME

Investment: CHF 10,000	If you cash in at the end of the recommended holding period
Total costs	CHF 167.51
Impact on return (RIY) per year	1.67%

The reduction in yield shown in the above table is annualised, which means it may not be comparable to the reduction in yield values shown in other key information documents.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

COMPOSITION OF COSTS

The table below shows:

- The impact of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	Entry costs	1.67%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Transaction costs	-	N/A
	Other ongoing costs	-	N/A
Incidental costs	Performance fee	-	N/A
	Carried interest	-	N/A

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs per year of the product as a percentage of the investment is estimated to be as follows: entry costs: 1.49% and exit costs: 0.00%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 21 August 2023 (maturity date)

The product aims to provide you with the return described under “What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: <https://derivatives.juliusbaer.com/en/home>.

OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland.

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
