

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

PRODUCT NAME	11.65% P.A. JB MULTI BARRIER REVERSE CONVERTIBLE (60% EUROPEAN) WITH LOCK-IN ON LINDE PLC, INDUSTRIA DE DISENO TEXTIL SA, UBER TECHNOLOGIES INC
PRODUCT IDENTIFIERS	ISIN: CH1163085124; Valor: 116308512
PRIIP MANUFACTURER	Bank Julius Baer & Co. Ltd., Guernsey Branch ("Julius Baer") (https://derivatives.juliusbaer.com/en/home) Call +41 (0)58 888 8181 for more information
COMPETENT AUTHORITY OF THE PRIIP MANUFACTURER	Swiss Financial Market Supervisory Authority (FINMA) – FINMA is not considered a competent supervisory authority under EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) in the technical sense, as Switzerland is not a member of the EU.
DATE AND TIME OF PRODUCTION	01 July 2022 08:25:20 CET

YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.

WHAT IS THIS PRODUCT?

Denomination	EUR 1,000.00	Initial Fixing Date	30 June 2022
Issue Currency	Quanto EUR: The currency risk is fully hedged	Issue Date	07 July 2022
Issue Price	100.00% of Denomination	Final Fixing Date	03 January 2024
Maximum Yield	17.57%	Final Redemption Date	10 January 2024
Maximum Yield p.a.	11.65%	Final Level	With respect to each underlying, its level at the scheduled closing time on the Final Fixing Date on the related Exchange
Initial Level	the level on the Initial Fixing Date	Lock-In Level	with respect to each underlying, the relevant Lock-In Level being 105.00% of its Initial Level
Strike Price	100.00% of the Initial Level	Lock-In Event	If the Level of each underlying at the Valuation Time on any Lock-In Observation Date is at or above its Lock-in Level.
Barrier	60.00% of the Initial Level	Lock-In Observation Date	the relevant Lock-In Observation Date(s) being the date(s) on which the Level of each underlying is observed for purposes of determining whether a Lock-In Event has occurred.
Barrier Event	The price of any underlying is at or below its Barrier on the Barrier Observation Date.	Day Count Convention	30/360
Barrier Observation Date	03 January 2024		
Coupon Amount	11.6472928% p.a. of the Denomination Split into two components (for Swiss tax purposes): Interest Amount 1.37% p.a. of the Denomination; Premium Amount 10.28% p.a. of the Denomination.		
Settlement Type	Cash settlement		

UNDERLYINGS

Name	ISIN	Initial Level	Break-even	Strike Price	Market	Currency	Exchange
Linde PLC	IE00BZ12WP82	EUR 273.95	EUR 225.8225	EUR 273.95	EQUITY	EUR	Xetra
Industria de Diseno Textil Inditex SA	ES0148396007	EUR 21.59	EUR 17.7971	EUR 21.59	EQUITY	EUR	Mercado Continuo Espanol - Continuous Market
Uber Technologies Inc	US90353T1007	USD 20.46	USD 16.8656	USD 20.46	EQUITY	USD	New York Stock Exchange, Inc.

TYPE: Swiss law governed notes.

OBJECTIVES: Barrier Reverse Convertibles are primarily targeted at investors expecting the value of the underlyings to remain constant or to slightly increase throughout the term of such products. The product offers you a return in the form of interest payments (i.e. the Coupon Amount as specified below under Interest) and a cash payment on the Final Redemption Date, based on the conditions set out below. The risk associated with the investment in the product is comparable to the risk associated with a direct investment in the Worst-Performing underlying. The product provides for the observation of the Barrier only once on the Final Fixing Date.

The Lock-In feature may provide you with a conditional protection from an unfavorable development of the underlying(s), i.e. if a Lock-In Event occurs you will receive on the Final Redemption Date a cash amount equal to 100% of the Denomination in addition to the interest payments.

Lock-In Observation Dates

02 August 2022	30 December 2022	30 May 2023	30 October 2023
30 August 2022	30 January 2023	28 June 2023	28 November 2023
30 September 2022	28 February 2023	28 July 2023	28 December 2023
31 October 2022	28 March 2023	28 August 2023	
30 November 2022	28 April 2023	28 September 2023	

INTEREST: On the relevant Coupon Payment Dates you will receive the respective pro rata payment percentage amount of 11.65% p.a. of the Denomination, provided that the product has not been redeemed, repurchased or cancelled prior to the relevant Coupon Payment Date. The coupon payments are not linked to the performance of the underlyings. The relevant dates are shown in the table below.

Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date	Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date	Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date
1st	07/07/2022	07/08/2022	08/08/2022	7th	07/01/2023	07/02/2023	07/02/2023	13th	07/07/2023	07/08/2023	07/08/2023

FINAL REDEMPTION: Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive:

- If the Final Level of **each** underlying is **above** its Barrier, a cash amount equal to 100% of the Denomination.
- If the Final Level of **at least one** underlying is **at or below** its Barrier, a cash amount equal to the Denomination multiplied by the ratio of the Final Level of the Worst-Performing underlying divided by its Strike.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 6 out of 7, which is the second highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: EUR 10,000		1 Year	03 January 2024 (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	EUR 5,647.89 -43.52%	EUR 3,863.76 -46.83%
Unfavorable scenario	What you might get back after costs Average return each year	EUR 8,851.31 -11.49%	EUR 5,720.84 -30.99%
Moderate scenario	What you might get back after costs Average return each year	EUR 10,952.85 9.53%	EUR 11,756.80 11.35%
Favorable scenario	What you might get back after costs Average return each year	EUR 12,089.42 20.89%	EUR 11,756.80 11.35%

This table shows the money you could get back during the lifetime of this product under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where Julius Baer may not be able to pay you.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the indicated holding period(s). They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

COST OVER TIME

Investment: EUR 10,000	If you cash in at the end of 1 Year	If you cash in at the end of the recommended holding period
Total costs	EUR 166.33	EUR 169.30
Impact on return (RIY) per year	1.66%	1.12%

The reduction in yield shown in the above table is annualised, which means it may not be comparable to the reduction in yield values shown in other key information documents.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

COMPOSITION OF COSTS

The table below shows:

- The impact of the different types of costs on the investment return you might get at the end of the recommended holding period.

- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	Entry costs	1.12%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Transaction costs	-	N/A
	Other ongoing costs	-	N/A
Incidental costs	Performance fee	-	N/A
	Carried interest	-	N/A

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs per year of the product as a percentage of the investment is estimated to be as follows: entry costs: 0.99% and exit costs: 0.00%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 03 January 2024 (maturity date)

The product aims to provide you with the return described under “What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: <https://derivatives.juliusbaer.com/en/home>.

OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland.

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
