Issue Price	100.00% of Denomination	Settlement Type	Cash settlement
Maximum Yield	12.65%	Initial Fixing Date	19 May 2022
Maximum Yield p.a.	10.10%	Issue Date	27 May 2022
Initial Level	the level on the Initial Fixing Date	Final Fixing Date	21 August 2023
Strike Price	100.00% of the Initial Level	Final Redemption Date	28 August 2023
Barrier	50.00% of the Initial Level	Final Level	The level at the scheduled closing time on the Final Fixing Date on the related Exchange
Barrier Event	The price of the underlying is at or below its Barrier at any point during any trading day in the Barrier Observation Period.	Day Count Convention	30/360
Barrier Observation Period	19 May 2022 (inclusive) to 21 August 2023 (inclusive)		

UNDERLYING

Name	ISIN	Initial Level	Break-even	Strike Price	Market	Currency	Exchange
Mercedes-Benz Group AG	DE0007100000	EUR 62.68	EUR 54.7495	EUR 62.68	EQUITY	EUR	Xetra

TYPE: Swiss law governed notes.

OBJECTIVES: Barrier Reverse Convertibles are primarily targeted at investors expecting the value of the underlying to remain constant or to slightly increase throughout the term of such products. The product offers you a return in the form of interest payments (i.e. the Coupon Amount as specified below under Interest) and a cash payment on the Final Redemption Date, based on the conditions set out below. The risk associated with the investment in the product is comparable to the risk associated with a direct investment in the underlying. The product provides for a continuous observation of the Barrier.

EARLY REDEMPTION: Unless previously redeemed, repurchased or cancelled, the Manufacturer may redeem the Products early in whole, but not in part, on any Optional Early Redemption Date at the Optional Early Redemption Price, provided that the manufacturer has exercised such right on the relevant Call Option Exercise Date by notifying the holders.

Call Option Exercise Date	Optional Early Redemption Date
22 August 2022	29 August 2022
21 November 2022	28 November 2022
20 February 2023	27 February 2023
22 May 2023	30 May 2023

INTEREST: On the relevant Coupon Payment Dates you will receive the respective pro rata payment percentage amount of 10.10% p.a. of the Denomination, provided that the product has not been redeemed, repurchased or cancelled prior to the relevant Coupon Payment Date. The coupon payments are not linked to the performance of the underlying. The relevant dates are shown in the table below.

Coupon Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date
1st	27 May 2022	27 August 2022	29 August 2022
2nd	27 August 2022	27 November 2022	28 November 2022
3rd	27 November 2022	27 February 2023	27 February 2023
4th	27 February 2023	27 May 2023	30 May 2023
5th	27 May 2023	28 August 2023	28 August 2023

FINAL REDEMPTION: Unless previously redeemed, repurchased or cancelled, on the Final Redemption Date, you will receive:

- If no Barrier Event has occurred, a cash amount equal to 100% of the Denomination.
- If a Barrier Event has occurred, and
 - the Final Level is **at or above** its Strike Price, a cash amount equal to 100% of the Denomination; or
 - the Final Level is **below** its Strike Price, a cash amount equal to the Denomination multiplied by the ratio of the Final Level of the underlying divided by its Strike Price.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 6 out of 7, which is the second highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: EUR 10,000

		1 Year	21 August 2023 (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	EUR 3,179.21 -68.21%	EUR 1,286.97 -80.47%
Unfavorable scenario	What you might get back after costs Average return each year	EUR 6,084.97 -39.15%	EUR 5,915.98 -34.17%
Moderate scenario ¹⁾	What you might get back after costs Average return each year	EUR 10,000.00 0.00%	EUR 10,000.00 0.00%
Favorable scenario ²⁾	What you might get back after costs Average return each year	EUR 10,000.00 0.00%	EUR 10,000.00 0.00%

¹⁾ In this scenario simulation the Trigger Barrier has been hit on 22 August 2022, the product therefore terminates early and no reinvestment is made.

²⁾ In this scenario simulation the Trigger Barrier has been hit on 22 August 2022, the product therefore terminates early and no reinvestment is made.

This table shows the money you could get back during the lifetime of this product under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where Julius Baer may not be able to pay you.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the indicated holding period(s). They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

COST OVER TIME

Investment: EUR 10,000	If you cash in at the end of 1 Year	If you cash in at the end of the recommended holding period
Total costs	EUR 101.01	EUR 101.01
Impact on return (RIY) per year	1.01%	0.80%

The reduction in yield shown in the above table is annualised, which means it may not be comparable to the reduction in yield values shown in other key information documents.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

COMPOSITION OF COSTS

The table below shows:

- The impact of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	Entry costs	0.80%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Transaction costs	-	N/A
	Other ongoing costs	-	N/A
Incidental costs	Performance fee	-	N/A
	Carried interest	-	N/A

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs per year of the product as a percentage of the investment is estimated to be as follows: entry costs: 0.80% and exit costs: 0.00%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 21 August 2023 (maturity date)

The product aims to provide you with the return described under “What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: <https://derivatives.juliusbaer.com/en/home>.

OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland.

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
