

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

PRODUCT NAME	17.50% P.A. JB AUTOCALLABLE BARRIER REVERSE CONVERTIBLE (50%) ON DOCMORRIS AG
PRODUCT IDENTIFIERS	ISIN: CH1375605677; Valor: 137560567
PRIIP MANUFACTURER	Bank Julius Baer & Co. Ltd., Guernsey Branch ("Julius Baer") (https://derivatives.juliusbaer.com/en/home) Call +41 (0)58 888 8181 for more information. The PRIIP Manufacturer is part of the Julius Baer Group.
COMPETENT AUTHORITY OF THE PRIIP MANUFACTURER	Swiss Financial Market Supervisory Authority (FINMA) – FINMA is not considered a competent supervisory authority under EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) in the technical sense, as Switzerland is not a member of the EU.
DATE AND TIME OF PRODUCTION OF THE KID	01 October 2024 08:30:18 CET

YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.

1. WHAT IS THIS PRODUCT?

TYPE: Swiss law governed notes.

TERM: The term of the product ends on the Final Redemption Date, unless the product has been terminated or redeemed early.

OBJECTIVES: Barrier Reverse Convertibles are primarily targeted at investors expecting the value of the underlying to remain constant or to slightly increase throughout the term of such products. The product offers you a return in the form of interest payments (i.e. the Coupon Amount as specified below under Interest) and either a cash payment or the delivery of the underlying on the Final Redemption Date, based on the conditions set out below. The risk associated with the investment in the product is comparable to the risk associated with a direct investment in the underlying. The product provides for a continuous observation of the Barrier.

EARLY REDEMPTION: If the closing level of the underlying on any Trigger Observation Date is at or above its Trigger Barrier, the product will redeem early and you will receive the Redemption Amount (100% of the Denomination plus the Coupon Amount) on the Trigger Redemption Date as specified below.

Trigger Observation Date	Trigger Redemption Date
08 April 2025	15 April 2025
08 July 2025	15 July 2025

INTEREST: On the relevant Coupon Payment Dates you will receive the respective pro rata payment percentage amount of 17.50% p.a. of the Denomination, provided that the product has not been redeemed, repurchased or cancelled prior to the relevant Coupon Payment Date. The coupon payments are not linked to the performance of the underlying. The relevant dates are shown in the table below.

Coupon Period	Start Date (inclusive)	End Date (exclusive)	Coupon Payment Date
1st	15 October 2024	15 January 2025	15 January 2025
2nd	15 January 2025	15 April 2025	15 April 2025
3rd	15 April 2025	15 July 2025	15 July 2025
4th	15 July 2025	15 October 2025	15 October 2025

FINAL REDEMPTION: Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive:

- If no Barrier Event has occurred, a cash amount equal to 100% of the Denomination.
- If a Barrier Event has occurred, and
 - the Final Level is **at or above** its Strike Price, a cash amount equal to 100% of the Denomination; or
 - the Final Level is **below** its Strike Price, the number of shares of the underlying specified in the Ratio. In addition, you will receive a cash amount in lieu for any fractional amount.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

Denomination	CHF 1,000.00	Coupon Amount	17.50% p.a. of the Denomination Split into two components (for Swiss tax purposes): Interest Amount 0.56% p.a. of the Denomination; Premium Amount 16.94% p.a. of the Denomination.
Issue Currency	CHF	Settlement Type	Physical settlement or cash settlement
Issue Price	100.00% of Denomination	Ratio	with respect to the underlying, the Denomination divided by its Strike Price
Maximum Yield	17.50%	Initial Fixing Date	08 October 2024
Maximum Yield p.a.	17.50%	Issue Date	15 October 2024
Initial Level	the level on the Initial Fixing Date	Final Fixing Date	08 October 2025
Strike Price	100.00% of the Initial Level	Final Redemption Date	15 October 2025
Barrier	50.00% of the Initial Level	Final Level	The level at the scheduled closing time on the Final Fixing Date on the related Exchange
Barrier Event	The price of the underlying is at or below its Barrier at any point during any trading day in the Barrier Observation Period.	Day Count Convention	30/360
Barrier Observation Period	08 October 2024 (inclusive) to 08 October 2025 (inclusive)		
Trigger Barrier	with respect to the underlying, 103.00% of its Initial Level		

UNDERLYING

Name	ISIN	Initial Level	Break-even	Strike Price	Ratio	Market	Currency	Exchange
DocMorris AG	CH0042615283	CHF 37.75	CHF 31.1438	CHF 37.75	26.4901	EQUITY	CHF	SIX Swiss Exchange

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until 08 October 2025. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 6 out of 7, which is the second highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

In case of physical delivery of the underlying on termination of the product, you may incur a loss if the value of the underlying decreases between termination of the product and the date when it is credited to your securities account.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: Until the product is called or matures. This may be different in each scenario and is indicated in the table

Example Investment: CHF 10,000

If you exit at call or maturity

Minimum	There is no minimum guaranteed return. You can lose some or all of your investment.	
Stress	What you might get back after costs Average return each year	CHF 2,129.00 -78.71%
Unfavourable	What you might get back after costs Average return each year	CHF 5,154.00 -48.46%
Moderate (product ends after 08 April 2025)	What you might get back after costs Average return each year	CHF 10,875.00 8.75%
Favourable	What you might get back after costs Average return each year	CHF 11,750.00 17.50%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The above scenarios are possible outcomes which have been calculated on the basis of simulations. In case of an early redemption the simulation assumes that no reinvestment is made.

If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

3. WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- CHF 10,000 is invested
- A performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date 08 April 2025	If the product reaches maturity
Total costs	CHF 186	CHF 188
Annual cost impact (*)	1.9%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 10.65% before costs and 8.75% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (CHF 102). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

		If you exit after 08 October 2025
One-off costs upon entry or exit		
Entry costs	The impact of the costs already included in the price	CHF 188
Exit costs	The impact of the costs of exiting your investment when it matures	CHF 0
Ongoing costs		

Management fees and other administrative or operating costs	There is no management fee for this product	-
Transaction costs		-

5. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 08 October 2025 (maturity date)

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

6. HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: <https://derivatives.juliusbaer.com/en/home>.

7. OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland (<https://derivatives.juliusbaer.com/en/home>).

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
