**YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.**

**1. WHAT IS THIS PRODUCT?**

**TYPE:** Swiss law governed notes.

**TERM:** The term of the product ends on the Final Redemption Date, unless the product has been terminated or redeemed early.

**OBJECTIVES:** Barrier Reverse Convertibles are primarily targeted at investors expecting the value of the underlyings to remain constant or to slightly increase throughout the term of such products. The product offers you a return in the form of interest payments (i.e. the Coupon Amount as specified below under Interest) and a cash payment on the Final Redemption Date, based on the conditions set out below. The risk associated with the investment in the product is comparable to the risk associated with a direct investment in the Worst-Performing underlying. The product provides for the observation of the Barrier only once on the Final Fixing Date.

**EARLY REDEMPTION:** Unless previously redeemed, repurchased or cancelled, the Manufacturer may redeem the Products early in whole, but not in part, on any Optional Early Redemption Date at the Optional Early Redemption Price, provided that the manufacturer has exercised such right on the relevant Call Option Exercise Date by notifying the holders.

Call Option Exercise Date	Optional Early Redemption Date
29 August 2025	08 September 2025
30 September 2025	06 October 2025
30 October 2025	06 November 2025
28 November 2025	08 December 2025
30 December 2025	06 January 2026
30 January 2026	06 February 2026
27 February 2026	06 March 2026

30 June 2026	06 July 2026
30 July 2026	06 August 2026
31 August 2026	07 September 2026

**INTEREST:** On the relevant Coupon Payment Dates you will receive the respective pro rata payment percentage amount of 10.00% p.a. of the Denomination, provided that the product has not been redeemed, repurchased or cancelled prior to the relevant Coupon Payment Date. The coupon payments are not linked to the performance of the underlyings. The relevant dates are shown in the table below.

**FINAL REDEMPTION:** Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive:

- If the Final Level of **each** underlying is **above** its Barrier, a cash amount equal to 100% of the Denomination.
- If the Final Level of **at least one** underlying is **at or below** its Barrier, a cash amount equal to the Denomination multiplied by the ratio of the Final Level of the Worst-Performing underlying divided by its Strike.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until 30 September 2026. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact Julius Baer’s capacity to pay you.

**Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 30 September 2026

Example Investment: CHF 10,000		If you exit after 1 year	If you exit after 30 September 2026
Minimum	There is no minimum guaranteed return. You can lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	CHF 4,322.00 -56.78%	CHF 3,055.00 -58.90%
Unfavourable	What you might get back after costs Average return each year	CHF 7,912.00 -20.88%	CHF 6,242.00 -29.77%
Moderate (product ends after 29 August 2025)	What you might get back after costs Average return each year		CHF 10,250.00 1.87%
Favourable (product ends after 29 August 2025)	What you might get back after costs Average return each year		CHF 10,250.00 1.87%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The above scenarios are possible outcomes which have been calculated on the basis of simulations. In case of an early redemption the simulation assumes that no reinvestment is made.

If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

3. WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 30 September 2026
Total costs	CHF 291	CHF 296

Annual cost impact (*)	2.9% each year	2.2% each year
------------------------	----------------	----------------

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.07% before costs and 1.87% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (CHF 103). This person will inform you of the actual distribution fee.

#### COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs already included in the price	CHF 291
Exit costs	The impact of the costs of exiting your investment when it matures	CHF 0
Ongoing costs		
Management fees and other administrative or operating costs	There is no management fee for this product	-
Transaction costs		-

## 5. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 30 September 2026 (maturity date)

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

## 6. HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: [derivatives@juliusbaer.com](mailto:derivatives@juliusbaer.com) or via the following website: <https://derivatives.juliusbaer.com/en/home>.

## 7. OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co.
