

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

PRODUCT NAME	JB 97.50% CAPITAL PROTECTION NOTE WITH BARRIER ON XAU/USD
PRODUCT IDENTIFIERS	ISIN: CH1449532048; Valor: 144953204
PRIIP MANUFACTURER	Bank Julius Baer & Co. Ltd., Guernsey Branch ("Julius Baer") (https://derivatives.juliusbaer.com/en/home) Call +41 (0)58 888 8000 for more information. The PRIIP Manufacturer is part of the Julius Baer Group.
COMPETENT AUTHORITY OF THE PRIIP MANUFACTURER	Swiss Financial Market Supervisory Authority (FINMA) – FINMA is not considered a competent supervisory authority under EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) in the technical sense, as Switzerland is not a member of the EU.
DATE AND TIME OF PRODUCTION OF THE KID	14 May 2025 08:53:57 CET

YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.

1. WHAT IS THIS PRODUCT?

TYPE: Swiss law governed notes.

TERM: The term of the product ends on the Final Redemption Date, unless the product has been terminated or redeemed early.

OBJECTIVES: Capital Protection Notes with Barrier are primarily targeted at investors expecting the value of the underlying to increase and that no Barrier Event will occur throughout the term of such products. The product allows the holder thereof to benefit from a limited participation in a percentage of any positive performance of the underlying (i.e. Payout Amount). Due to the Participation, you may participate above or below average in any increase in the value of the underlying, up to the Barrier. You should be aware that a Barrier Event will typically occur if the underlying performs very positively and the level of the underlying exceeds the Barrier. If a Barrier Event occurs, investors will no longer participate in any positive performance of the underlying and the Payout Amount will be equal to the Rebate.

If the value of the underlying has developed unfavourably and will drop below the Protected Redemption Amount, the Payout Amount due on the Final Redemption Date will be equal to zero and the holder of such product will only receive the Final Redemption Amount (i.e. the Protected Redemption Amount). Investors in any such product should be aware that the Protected Redemption Amount may be less than the Issue Price (or, if different, the price the relevant investor paid for such product). The product provides for a continuous observation of the Barrier.

FINAL REDEMPTION: Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive:

- If a Barrier Event has occurred, the Protected Redemption Amount plus a cash amount equal to the Denomination multiplied by the Rebate.
- If no Barrier Event has occurred, and
 - the Final Level is **at or below** its Strike Price, a cash amount equal to the Protected Redemption Amount which is 97.50% of the Denomination; or
 - the Final Level is **above** its Strike Price, a cash amount equal to the Protected Redemption Amount plus the Payout Amount. The Payout Amount equals the ratio of the Denomination and the Strike Price multiplied by the difference between the Final Level and the Strike Price and further multiplied by the Participation **but** is limited to the Barrier, in accordance with the following formula:

$$(\text{Denomination} / \text{Strike Price}) \times (\text{Final Level} - \text{Strike Price}) \times \text{Participation} \rightarrow \text{limited to the Barrier}$$

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

Denomination	USD 1,000.00
Direction	Bull
Issue Currency	USD
Issue Price	100.00% of Denomination
Initial Level	the level on the Initial Fixing Date
Strike Price	100.00% of the Initial Level
Barrier	with respect to the underlying, 120.00% of its Initial Level
Barrier Event	The price of the underlying is at or above its Barrier at any point during any trading day in the Barrier Observation Period.
Barrier Observation Period	23 May 2025 (inclusive) to 26 May 2026 (inclusive)
Capital Protection	97.50%
Participation	100.00%
Rebate	10.00%

Barrier Observation Period	23 May 2025 (inclusive) to 26 May 2026 (inclusive)
Initial Fixing Date	23 May 2025
Issue Date	28 May 2025
Final Fixing Date	26 May 2026
Last Trading Date	26 May 2026
Final Redemption Date	28 May 2026
Tenor	365 days
Final Redemption Amount	97.50% of the Denomination (i.e., the Protected Redemption Amount)
Final Level	The level at the Valuation Time on the Final Fixing Date
Valuation Time	09:30 AM New York Time

UNDERLYING

Name	ISIN	Initial Level	Strike Price	FX Page
XAUUSD	-	3,235.0000 USD per XAU	3,235.0000 USD per XAU	Bloomberg

INTENDED RETAIL INVESTOR

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have low ability to bear investment losses and attach importance to capital protection;
- Seek capital protection and have an investment horizon of the recommended holding period specified below;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until 26 May 2026. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least USD 975.00 per product. Any amount over this, and any additional return, depends on future market performance and is uncertain.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 26 May 2026

Example Investment: USD 10,000		If you exit after 26 May 2026
Minimum	USD 9,750.00	
Stress	What you might get back after costs Average return each year	USD 9,750.00 -2.40%
Unfavourable	What you might get back after costs Average return each year	USD 9,750.00 -2.40%
Moderate	What you might get back after costs Average return each year	USD 9,750.00 -2.40%
Favourable	What you might get back after costs Average return each year	USD 10,530.00 5.20%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The above scenarios are possible outcomes which have been calculated on the basis of simulations. In case of an early redemption the simulation assumes that no reinvestment is made.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The return is only guaranteed if you keep the product until the end of the recommended holding period.

3. WHAT HAPPENS IF JULIUS BAER IS UNABLE TO PAY OUT?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods.

We have assumed:

- You would get back the amount that you invested (0 % annual return).
- USD 10,000 is invested

	If you exit after 26 May 2026
Total costs	USD 184
Annual cost impact (*)	1.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.60% before costs and -2.40% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (USD 184). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

Composition of costs		If you exit after 26 May 2026
One-off costs upon entry or exit		
Entry costs	The impact of the costs already included in the price	USD 184
Exit costs	The impact of the costs of exiting your investment when it matures	USD 0
Ongoing costs		
Management fees and other administrative or operating costs	There is no management fee for this product	-

Transaction costs

5. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 26 May 2026 (maturity date)

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

6. HOW CAN I COMPLAIN?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: <https://derivatives.juliusbaer.com/en/home>.

7. OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland (<https://derivatives.juliusbaer.com/en/home>).

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
